

Using the GYN AZOLE 1[®] Prefilled Disposable Applicator

3 Easy Steps:

Step 1: Preparing the Applicator

Peel back the protective foil and remove the prefilled applicator. Applicator is designed to be used with tip in place. **Do not remove tip; do not use applicator if tip has been removed.**

Do not warm applicator before using. While holding the applicator firmly, pull the ring back to *fully* extend the plunger (See Figure 2).

Step 2: Inserting the Applicator

Gently insert the applicator into the vagina as far as it will comfortably go (See Figure 3).

Step 3: Applying the Cream

Push the plunger to release the cream (See Figure 4). Remove the empty applicator from the vagina and throw it away.

Important Instructions:

- One prefilled applicator of GYN AZOLE•1[®] should be administered.
- This cream contains mineral oil. Mineral oil may weaken latex or rubber products such as condoms or vaginal contraceptives, diaphragms; therefore, use of such products within 72 hours following treatment with GYN AZOLE•1[®] is not recommended.
- There are no adequate and well-controlled studies in pregnant women. GYN AZOLE•1[®] should be used during pregnancy only under the supervision of a physician.
